

MEMBER SPOTLIGHT

Craig Stein

HPE Coordinator, Maida Vale Primary School

What do you love about your job?

I love that lightbulb moment when a student masters a skill for the first time. It's fantastic to see a student's perseverance rewarded, especially those that are filled with self-doubt or low on confidence. It's a pretty amazing opportunity to make a difference in another person's life every day

Why are you an ACHPER member?

for the opportunity to stay updated with relevant PL, network and stay across the current trends with HPE. ACHPER does a terrific job advocating for our industry and I feel my membership helps support the work they do.

What project do you have planned this year?

My school is one of 3 case study sites working with Curtin's Relationships and Sexuality Education Health project. Jacqui Hendricks has been supporting our staff to deliver contemporary, research based RSE content to our students and parents.

Attended any ACHPER PD?

I've been a member for 7 years, but only recently attended the State Conference. I wish I had started going years ago. I've been in awe at the breadth of knowledge that is presented across the 3 days each year. The presenters and topics are always first class!

#who do you follow?

Ben Landers [@thespecialist](#)
Team Hemley
[Perth HPE Teachers group](#)

Best piece of teaching advice ever received?

Nurture the relationship and everything else will follow.
